IMPURE BAKING POWDER SEIZED.

The New York Board of Health Find It Contains Alum and Rock, Declare Dangerous to Health and Dump It into the River.

The New York papers report that the Health Department of that city has seized as dangerous to health nearly two tons of cheap mixtures sold for baking powder, and dumped them into the offal scow to be destroyed. More of the powder was found in a Sixth ave. department store. The report of the analysis of the Health Department stated that it was "an alum baking powder" containing alum and pulverized rock.

The different Health Authorities seem to have different ways of repressing the sale of bad baking powders. In England they have prosecuted the grocers under the general law and broken up the traffic. In Missouri the sale of alum baking powder is actually prohibited by law. In New York they seize the unwholesome stuff and cast it into the river, without any discussion. The latter way is certainly effective.

The alum baking powders are usually offered at a low price, ten to twenty cents a pound, or with some prize, as a temptation to the housewife.

Consumers can protect themselves by buying only high-grade baking powder of established name and reputation. Do not be tempted by the grocer to take something else as "just as good" or "our own brand," for the trials show that the grocer himself is often deceived by unscrupulous makers and is selling an alum powder without knowing it.

There are several good powders on the market; let the housekeeper insist on having what she knows is right, and not be induced to risk the life of the family for an imaginary saving of a few cents.

Hold-Up at Fairview.

On his return home Thursday C. T. Brown related the circumstances of a hold-up at Fairview on Friday, the 11th inst. At nine o'clock in the evening of that day two masked men entered the store of Hon. F. H. Winston, ordered the proprietor at the muzzle of a revolver to hold up his hands, and proceeded to ransack the establishment for money and other valuables. Luckily they succeeded in finding only \$75. This they appropriated and about \$25 worth of clothing. There is good reason to believe that the robbers thought that there was a considerable sum of money in the store. As they were about to leave they found that one of their horses had escaped and they were obliged to take possession of one in a neighboring corral. This horse was afterwards found hobbled in the vicinity of a ranch not far away. There are circumstances tending to arouse a suspicion that the robbery was committed by parties who are not strangers in the country.

THE CHIEFTAIN office has just been supplied with a stock of card envelopes.

Company H desires the presence of all citizens who do not care to dance as well as of those who do. Seats will be provided for all. Come and give the soldier boys a good send-off.

The prices for the ball are as follows: Tickets for gentlemen wishing to dance, \$1.00; tickets for gentlemen not wishing to dance, 50 cts.; ladies free. Only those taking part in the ball will be allowed on the floor. Seats for other guests will be placed in the balconies.

Mrs. S. C. Berry, the noted pianist and opera singer who will play for the ball, will render some choice vocal selections during the evening. This feature alone of the evening's entertainment will be well worth the attendance.

Company H, in giving their first ball, desire to entertain their guests royally. The company is composed of the best young men of the city and they will try to prove themselves good entertainers as well as good soldiers.

As a teacher he was conscientious and successful and as deputy postmaster he was painstaking and uniformly courteous. He leaves a wife and five small children to mourn his loss. Any community whatever can ill afford to lose such a man and citizen as was Alejandro Gallegos. The remains were escorted to their last resting place by Company H, of which organization Mr. Gallegos was an honored member.

Board of County Commissioners.

The board of county commissioners met Wednesday in adjourned session and adjourned again to meet May 19. The delay in completing the business of the regular session is caused by a difference of opinion as to who has authority to draw warrants on the school fund.
